DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 2/26/07 has been entered.

Claims 1-37 have been presented for examination in this application. In response to the last office action, claims 34-37 have been amended. As a result, claims 1-37 are now pending in this application.

Claims 1-37 are allowed.

Applicant's amended claims 34-37 have overcome the rejections of the claims under 35 U.S.C 112 second paragraph in the previous office action.

Information Disclosure Statement

The Information Disclosure Statement(s) received 9/29/06, 2/26/07, 5/15/07, 9/17/07, 10/4/07, and 3/21/08 have been considered. Please see attached PTO-1449(s).

Allowable Subject Matter

Claims 1,11,17,24 and 29 are allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts that teach "...arbitration control logic coupled to the

multiplexor and the packet memory and being operable to determine from the memory request identifiers stored in the packet memory the recency of the memory requests corresponding to the received remote memory responses and the local memory responses ...”

Claim 6 is allowable over the prior art of record because the Examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of the said prior arts that teach “..A memory hub being operable to receive local memory responses and remote memory responses, ..to apply an arbitration algorithm to select the order in which the local and remote memory responses are provided on an uplink output based on ages of memory requests corresponding to the local and remote responses”.

The remaining dependent claims, not specifically mentioned, are allowed for the same rationale as the independent claim(s) being based from.

Conclusion

When responding to the office action, Applicant is advised to provide the examiner with the line numbers and page numbers in the application and/or references cited to assist examiner to locate the appropriate paragraphs.
